PROFILE

Infrastructure engineer with **5+ years** building cloud-native automation across Azure and AWS in enterprise environments — Splunk multi-site clustering, Terraform across **2,500+ subscriptions**, CI/CD, and observability. Certified in Azure (AZ-104), Terraform, and RHCSA. Drove an **AI-assisted automation initiative** for pipeline-failure detection, log analysis, and release tagging, and build MCP servers and LLM pipelines in the open.

EXPERIENCE

Wolters Kluwer — DevOps & Cloud Engineer

Apr 2024 - Present

IT Infrastructure & Operations · Pune, India

- Architected and led the migration of Splunk to a **multi-site clustered deployment**, achieving WK ARC certification — improving search performance, availability, and DR readiness.
- Built multi-cloud automation (AWS SSM/EC2 + Azure Run Command) for Splunk upgrades with automatic rollback, managing **20,000+ endpoints at 99.9% success**; cut index provisioning from **3–5 days to 10–15 minutes**.
- Led migration of **200–300 subscriptions across 25 Azure tenants** into the WK CTC (Security) structure, deploying governance via Terraform with ServiceNow CAM kept in sync.
- Built Python/PowerShell tech-debt scanning across **2,500+ subscriptions**, with remediation pipelines resolving **2,000+ flagged resources**; resolved **400+ P1/P2 incidents** with RCA and SLA adherence.
- Achieved **35% Azure cost reduction** through right-sizing and cleanup automation; drove an **AI-assisted automation initiative** for pipeline-failure detection, log analysis, and release tagging.

Wolters Kluwer — Associate DevOps & Cloud Engineer

Aug 2022 - Mar 2024

IT Infrastructure & Operations · Pune, India

- Developed Splunk dashboards for real-time financial reporting and **SOC2 compliance** monitoring, giving audit-ready visibility to leadership and security.
- Engineered data-protection controls including ingestion suppression of sensitive fields, and provisioned Azure environments with clustered Splunk for safe pre-production testing.
- Built self-service automation runbooks reducing manual effort by **70%**; awarded **Star Performer (Q1 2023)**.

Colgate Global Business Services — Executive Associate

Aug 2021 - Jul 2022

Endpoint & Infrastructure · Mumbai, India

- Managed **20,000+ global Windows endpoints** via SCCM/MECM, Workspace One, and Tanium across **79 factories in 70 countries**.
- Partnered with Security on emergency **zero-day patching**, and built PowerShell automation for silent app deployment and legacy decommissioning.
